

# FRAMEWORK FOR MINORS

---

The following framework for minors was approved by Senate in April of 2016. Minor programs subsequently approved by Senate will follow this framework.

- Minors require 24-30 credits with a minimum of 12 credits from courses at the 3000 level or higher in a specific academic discipline or defined cross-disciplinary area.
- Minors can be attached to any bachelor's degree.
- All minors become part of a major or double-minor program.
- Students are not permitted to complete a minor in the same field of study as their major; a minor must be in a discipline other than the student's major program of study.
- Students may re-use courses in fulfilling requirements for their minor(s).
- Students may obtain a major in one Faculty and a minor in another; the Faculty in which the student is obtaining the major will grant the credential.
- In order to graduate with a minor, students must successfully complete the required courses for the minor with a minimum CGPA and PGPA of 2.00, in accordance with Policy AC14, KPU Credential Framework (<https://www.kpu.ca/policies/>).
- All minors must be declared on or before the submission of a graduation request.
- There is no limit to the number of minors a student can obtain; however, students cannot earn additional minors as part of a credential that has already been awarded.
- Successful completion of a minor will be recorded on a student's KPU official transcript.
