

ADULT UPGRADING

In Adult Upgrading students of all backgrounds and abilities participate in the University experience while upgrading their skills in English, math, and science.

Students may begin improving their skills from any level—whether they are new to reading, writing or math, just need to upgrade some of their skills, or only need a few courses to complete their BC Adult Graduation Diploma:

- Biology Qualifying (BIOQ)
- Chemistry Qualifying (CHEQ)
- English Language Studies (ELST)
- English Qualifying (ENGQ)
- Mathematics Qualifying (MATQ)
- Physics Qualifying (PHYQ)

Adult Upgrading students can choose from a variety of options to assist them in reaching their goals, including additional elective courses, and courses delivered in-person, fully online, and in blended formats. As well as improving their skills in English, math, and the sciences, students learn how to think critically, and develop study skills, time-management skills, and self-discipline. In Adult Upgrading, students prepare themselves to succeed in other KPU programs and beyond.

Math, science and English courses are available for students pursuing a BC Adult Graduation Diploma or for those students trying to meet prerequisites for university courses and programs.
