

HEALTH FOUNDATIONS

The Health Foundations program provides the foundational knowledge and skills necessary to continue studies in the health care field. Students who successfully complete the program may, through a competitive declaration process, enter and continue through the final three (3) years of the Bachelor of Science in Nursing or Bachelor of Psychiatric Nursing programs. Alternatively, students may continue with other undergraduate programs at KPU or elsewhere.

Who Studies Health Foundations?

The target student audience includes any individuals who wish to explore foundational concepts related to a career in nursing. They may be of any age, gender or background and enter directly from post-secondary or as mature students.

Programs

- Certificate in Health Foundations (<https://calendar.kpu.ca/programs-az/health/health-foundations/health-foundations-certificate/>)
